Who makes house calls anymore?
"Why bother?" some people ask. In an age when the house call has almost disappeared from American life, why do we bother to make them? The answer is simple. More people depend on the telephone today for more things than ever before. We simply can't afford to let it break down. That's why if your telephone ever does break down, no matter what the reason, we'll come fix it free. We know what a serious inconvenience an out-of-service telephone can be, and that's why we bother. Because it matters, to us and to you.
